# Memo

**To:** The Board of Selectmen

**From:** John Murray 

**Date:** October 31, 2003

**Re:** Surplus Equipment

---

We respectfully ask that the Board declare Emergency Management's 1952 jeep surplus. Currently, the jeep is inoperable, parts are difficult to find, and this type of vehicle has been determined to have a significant roll over risk. We believe there is a restoration market niche that may have interest in the vehicle and we seek permission to auction the vehicle off on e-bay.
